Eddy Decries Two-Tiered System of Justice

After the election, President Trump will replace the Attorney General and the FBI Director in the first steps towards de-politicizing the Department of Justice.

27 May 2024

The sham politicized trials of President Trump highlight a disturbing trend in the justice system. There are numerous examples of Democrats not being held accountable for crimes and these trials will only increase citizens' distrust of the American judicial system.

Numerous attorneys from both sides of the aisle are disgusted and disturbed with the Department of Justice's and the states' Attorneys General for pursuing lawfare against President Donald Trump, especially since Democrat politicians have done the same thing (or worse with no consequences)

- Hillary Clinton paid for the Steele dossier from her campaign funds and hid the transaction behind "legal fees."
- Hillary Clinton transferred classified material to her home computer and willfully destroyed evidence requested through a subpoena.
- FBI Deputy Director Andy McCabe lied to FBI agents, was fired by President Trump, received his full pension upon appeal, and was not charged.
- President Biden willfully removed classified material from secure facilities as a Senator and Vice President and was not charged, partly because he's a feeble man with significant memory issues.
- President Biden held up weapons shipments to Israel and is pressuring European nations to not press Iran on its nuclear program...ostensibly due to political and not foreign policy reasons.

Responding to these injustices, Eddy stated *"My wife and I spent a lot of time in the FBI standing up for the American system of justice. We have a lot of friends in the law enforcement community who are embarrassed by what has happened to our agencies. Many in our South Florida community escaped from regimes where administrations persecuted their enemies and used their judicial systems to go after members of the opposite party. They came to the US because they thought it was a fair and just nation. It still can be."*

Chris Eddy is running for U.S. Congress in Florida's 25th District to Stop the Chaos. He is a retired Air Force Reserve Brigadier General, a retired FBI Intelligence Leader, a Weston City Commissioner, an award-winning teacher, community leader, and a devoted husband and father. He also holds 2 Masters degrees and a PhD in Leadership and is the author of two books on leadership. "Our kids told me to quit yelling at the TV and do something about this mess so I am!"

Federal primary elections will be held on August 20, 2024 with the general election on November 5, 2024.
